(5) The question for consideration is what is the correct interpretation to be placed upon ~~the~~ clause (h) of Section 45 of the District Board Regulation corresponding to Section 8 of the old Regulation, namely development of the economic condition of the District with special reference to education, agriculture and industries and commerce.

(6) The cardinal rule of interpretation is to construe the expressions or words used in a statute in their ordinary and literal sense. Applying this rule we have to see what the expressions mean in their literal sense. The word "economics" means the general laws affecting the production, distribution and consumption of wealth. The word "development" connotes the improvement of the existing system and by the

use of the words "special reference to education agriculture, industries and commerce," it may fairly be supposed that the funds of the District Board should be used for improving the existing condition of the District in respect of production, distribution and consumption of wealth by means of education, agriculture &c which are not ordinarily to be found to exist in the District. Having regard to the facilities already afforded by Government for encouraging primary and secondary education which dispel illiteracy and tend to promote general education to the ever increasing number of unemployed persons who are educated under the defective system prevailing in India it will not be wrong to presume that the legislature ~~xxxxxxx~~ intended that the encouragement should be given to such a kind of education as ~~agriculture, industries and commerce, which~~ would immediately lead to the production, distribution and consumption of wealth, with a view to stimulate persons to take to vocational and technical education which is sadly wanting in the country. by grant of Scholarships out of slender resources of the D.B.

(7) I am therefore of opinion that the slender resources of the District Board should not be frittered away on any other kind of education except those leading to the immediate production, distribution and consumption of the wealth of the country.

(8) Apart from this interpretation the section as worded gives ample power to the Government to dictate ~~xxxxxx~~ their policy and direct the District Board to use its funds ~~xx~~ only to such purposes as the Government deem fit having regard to all the

Sec 45(1) gives ample power to Govt either to sanction or withhold sanction any grant for any of the objects specified in Sec 45(1).

Govt may perhaps be justified in withholding sanctions to any proposal to spend Sch Fund for general education other than those specified in cl(c) restrict its funds only for technical education as a matter of policy. cl(b) of Sec 45(1) is, in my opinion, applicable to technical edn.

This opinion seems to be strengthened by the provision made in cl(c) which is for establishing, maintaining schools

Sir,

In forwarding herewith copy of letter No. Nil dated the 4th instant from Mr. S. Shamashastry, District Board Member, Maddagiri, proposing that a contribution may be given to the "Poor Boys' Fund" of Maddagiri in view of the extreme poverty of most of the students in the Sub Division and the surrounding area, studying in the High School there, I have the honour to state that the subject was discussed by the District Board at their meeting held on the 6th instant and a resolution was passed sanctioning a sum of Rs 100/- for the purpose.

Rec'd 3.1.27

A copy of the resolution is enclosed.

I therefore request that you will kindly obtain sanction of Government to the resolution of the Board, the amount being met from the provision of Rs 2000/- made under M.Mis.(d) compensation in the current year's budget.

I have the honour to be,

Sir,

your most obedient servant,

K. V. Anantaraman

No Dated,

Proposals are being received from the local bodies for contributions from their funds for various objects connected with the Economic Development (of the ~~area~~ with reference to Education, Agriculture and Industries and Commerce.) Among Educational objects applications for the starting of funds for helping poor boys in their ordinary Educational advancement have also been recommended. Government consider that a general ruling in regard to the nature of the objects comprised under the term ' Economic Development' in general and as applied to Education in particular is necessary. They are therefore pleased to direct as follows :-

~~With the meanings literally attached to~~ the words " Economic " and " Development", the term " Economic Development" (with special reference to Education, Agriculture and Industries and Commerce in a District) ~~has to be~~ are to be intrepeted to mean the improvement of ~~the~~ existing conditions of the District in respect of production, distribution and consumption of wealth by means of Education, Agriculture &c, ~~which are not to be found to exist in the District.~~

Facilities have been already afforded by Government in the several Districts for encouraging primary and Secondary education which is expected to dispel illiteracy and promote general Education. It has therefor

to be presumed that the legislature intended that money in regard to education should be spent only on such kind of Education as would immediately lead to the production, distribution and consumption of wealth by grant of scholarships &c, to vocational and technical education, facilities for which do not at present exist adequately.

Government therefore direct that the ~~entire~~ resources of the District Boards and Municipal Councils, should not be ~~diverted~~ spent ~~away~~ on any other kind of education than that leading to the immediate production, distribution and consumption of wealth in the country. In this view Scholarships for Gen. Edn. may not be recommended from this source.
